As clients of Lanes Interiors we would not hesitate to recommend Jennie Tomlinson as an Interior Designer.

We sought Jennie's advice on the interior and exterior paint colours for our newly built home. As we were so impressed with her ability in this we continued to seek assistance with the co-ordination and sourcing of curtains, blinds, wall papers, bed coverings, floor coverings including tiles, carpets and rug, joinery colours and coffee tables. To ensure all care and attention is taken to achieve the professional finish that Lanes Interiors are renowned for, all fitting of curtains and blinds is done in-house as is the delivery and placement of all other items.

Recently, our home was photographed for the Master Builders Awards so we employed Jennie again to come and style our home to present for the photographer. She employed a florist whom she worked with personally, choosing correct colour schemes, interesting flowers and botanical plants which worked well with the design theme of our home.

She then proceeded to place some wonderful accessories consisting of ottomans, prints, objet d' art and books in appropriate areas, which gave our home a wonderful welcoming feel. We loved them so much that we actually purchased every piece. Our furniture was suitably arranged to balance the layout of the spaces we needed to create.

We also employed Jennie to attend several art shows to assist us in choosing the suitable pieces to complement our style. Her styling expertise was well worth considering as when our home was judged I am sure her knowledge and flair helped us to win our Award. I would fully recommend her as a stylist for most situations whether it is entering in an award like ours, selling your home or any projects requiring skills in this area.

Jennie displayed a professional approach by initially analysing our taste in design and colours. She maintained flexibility in working with our personal preferences and selections. As a result we have the finish we are thrilled with - an airy and light, soft contemporary style which enabled us to win the Master Builders Awards.
