Dear Jenni and Wally

I write to express our appreciation for the quality and insightful work you've undertaken for Kaloma Home for the Aged.

When Kaloma approached you around 2003 to freshen up our then 32 bed aged care home we were most pleased with your approach to our ideas and insight into what older people enjoyed in their surroundings. The flooring, paint and curtain fabrics you chose provided us with a home that was crisp, fresh, light and yet stimulating and pleasing to the senses yet appropriate to a high and low care home.

In 2004 we undertook a further development of a 10-bed secure dementia wing and we elected to flow through with your successful colour scheme. Relatives visiting stated how tranquil and pleasing the colours used were.

We have once more been most pleased to draw on your expertise with the furnishing of the refurbished extra services wing where your brief was to provide a high quality contemporary and aesthetically pleasing environment for residents. Your use of colour and light has been exceptionally pleasing.

Visitors make regular comment as to how pleasing the colours used here are. Importantly the colour scheme you chose has stood the test of time and remains contemporary not outdated

I would be happy to discuss your approach and our satisfaction with anyone.

Kind Regards

Penni Roberts
Chief Executive Officer
